Passage 3

短文理解 1

35 Forest Avenue
Dew’s Parker
Adelaide
12, Nov.

Dear Bob,

I'm just writing to let you know our new address and to invite you to our house-warming party next Saturday. I'm sorry about the lack of warning, but we've been busy moving house and I've had little time for anything else. In any case, we only decided to hold the party last week when we found out that cost of moving was not as high as we thought and we had a little cash to spare.

We moved to here two days ago and we've been working non-stop ever since. This evening we decided to have a few hours' rest, so I'm writing a few invitations to some friends.

You can do the trip from Bedford to Flinders in two hours now that the new motorway is open. Dew's Parker is rather difficult to find though, because it's a new housing estate and few people know where it is. Give us a ring when you are in the area and I'll give detailed directions to you then. Our number is 56889590.

Barbara and I hope you can make it in spite of the short notice.

All the best

Charles

P. S. We can fix you up with a place to sleep - I guess you can put up with a mattress on the floor!

短文理解 3

The Internet has become a part of everyday life for most Britons, says a report published this week by market research company Netinfo.

Just over 70% of people questioned for the survey said the net had become essential. The survey reveals that emailing friends and others is the nation's favourite Internet activity. It also found that people spend an average of seven hours a week online, visiting 13 different websites in seven days. But 10% of all those who surf the net are doing it for more than 20 hours a week.

Just over 2,000 adults in Britain were interviewed for the report. The study found almost 19 million people in the UK — four in ten adults — regularly went online. But the number of new users has slowed down. Numbers online grew by just 11% over the past 12 months compared with 33% the previous year.

The report also reveals the increasing importance of the silver surfer. According to the report the number of older people online grew by more than 40% over the past year. People

aged over 55 now make up 17% of the UK Internet population.

The survey also discovered that many workers surf the net for personal reasons while at work. Almost three-quarters of workers with Internet access admitted using it for pleasure, usually to email friends and family. According to Bill Wills, author of the survey, many employees expect some flexibility, and most employers are willing to accept this. 'However, employers are less likely to be understanding, if you're downloading movies or introducing an unfriendly virus to your company network,' he said.

Questions 36—40:

36. More than seven out of 10 people feel they can't manage without the Internet.
37. Young people use the Internet for emails mainly.
38. The most common use of the Internet is surfing the web.

40. About 40% of adults use the Internet.

One morning last week, I ate breakfast in a small restaurant not far from my school. Unfortunately, I found that I did not have any money on me. I had left my wallet at home. I tried to explain this to the manager of the restaurant, but he did not believe me and wanted to call the police. I tried to call my wife, but she was not at home. Just then, I saw a former classmate walking past the restaurant, and I asked him to pay for my breakfast.
